E-COAT+3 LAB Series

POWDER COATING DEVICES

The powder coating device with **E-COAT+3 LAB BC** case and powder test cup is designed for applications where mobile and small-sized sample tests are carried out and the powder is placed in the container.

E-COAT+3 LAB DC desktop type powder coating device with powder testing cup is designed for applications in stationary laboratory environments, where small sample sizes are tested and the powder is placed in the cup.

The powder coating device with **E-COAT+3 LAB BI** bag and in-line type injector is designed for applications where portable and small sample trials are performed and the powder is used through a sample bag.

E-COAT+3 LAB DI is designed for stationary applications in laboratory environments, where small sample sizes are tested and it is preferred to use the powder via suction from a sample pouch.

Electron

E-COAT+3 LAB Series

E-COAT+3 LAB BC
System Content

+ E-COAT+3 Master type electrostatic powder coating device integrated in the Carrying Case
+ Laboratory Type powder spray gun with E-GUN+3 LAB, Rear Powder cup
+ 45° and 90° Angled Head Groups
+ 50 and 250mm Head Assembly Extension Kits
+ Flat and Deflector type Nozzle and Head Group types in all sizes

E-COAT+3 LAB BI
System Content

+ E-COAT+3 Master type electrostatic powder coating device integrated in the Carrying Case
+ E-GUN+3 C1 Electrostatic Powder Coating Gun
+ E-FEED+3, In-Line type gun bottom suction injector
+ 45° and 90° Angled Head Groups
+ 150 and 250mm Head Assembly Extension Kits
+ Flat and Deflector type Nozzle and Head Group types in all sizes

E-COAT+3 LAB DC
System Content

+ E-COAT+3 Master type electrostatic powder coating device
+ E-GUN+3 LAB with rear powder cup, Laboratory Type powder coating gun
+ E-COAT+3 series desktop mounting kit

E-COAT+3 LAB DI
System Content

+ E-COAT+3 Master type electrostatic powder coating device
+ E-GUN+3 C1 Electrostatic Powder Coating Gun
+ E-FEED+3 VI, In-Line type gun bottom suction injector
+ E-COAT+3 series desktop mounting kit
